A froil green stem with a leaf or so Peops up through the winter's melting snow, And day by day the leaflets expand; As the spring-time breezes blow more bland, A finy bud on the stem is seen—
A bright red spot in a sheath of green-Which slowly opes 'neath the noon-tide ray, Little by little from day to day; Growing more fair with its bursting bloom Shedding around it a sweet perfume; "Till clothed in beauty it rears its head, With its bright green leave and blossoms red; On its bending stem so frail and brittle, The flawer groweth ever-little by little. lattle by little the streamlets grow; A few clear drops from the springs below, You hanfed by the winter's melting snow,

Over the mendows all wind their way, Wearing their course through the softened clay Now they will gather some drops of dew; Each one helps, though their number be few; Thus day by day will they grow more strong, As soft and silent they glide along; And day by day will they power gain Prom spring-time showers and summer rain Till surping, billowy waters gleam— The few west drops are a mighty stream Which never will rest, and never settle, But groweth ever-little by little.

That heart and brain to perfection grow As flowers blossom, and waters flow? Little by little is knowledge gained ; Virtue expands, like a bursting flow'r, Little by little, and hour by hour. And streams of wission like rivers grow From Fonts eternal which consuless flow. An Incident.

A touching case was presented yesterday to the consideration and charity of one of the Good Samaritans who now take care of the sick, relieve the destitute and feed the starving. A boy was discovered in the morning lying in the grass of Claiborne street, evidently bright and intelligent, but A man who has the feelings of kindness strongly developed, went to him, shook him by the shoulder and asked him what he was doing there. Mother never told a lie.' 'Yes, my lad,' said the man, overcome with emotion, the has sent me to take care of you' should have seen his eyes flash and the amile of triumph break over his face as he the effect of never deceiving children with idle teles. Ms. HARPER :- Permitme, through your columns, to call the attention of the citi zens of Gettysburg to this excellent Association, whose organization bears the above The series of interesting Public Lectures of last winter furnished under the auspices of this Association, will not soon be forgotten. The impulse given to the effort, by means of these popular Lectures, it was hoped would commend the Association to the active sympathy of our citizens generally, and the equally active co-operation of large numbers of them. The first I have reason to believe has been secured, but I regret to say that in the latter respect much disappointment has been felt by the membership. Certainly they are of a character to command the hearty approval of every good citizen, and should enlist the active co-operation of many who as yet have stood aloof. Although a "Young Men's" Association, and especially intended to alvance the interests of that class, the cooperation of all, without regard to age or position, is invited and expected. I have before me the annual reports of various Associations in York, Harrisburg, Baltimore, Washington, Boston, Fred rick, &c , and in all of them, among the officers, and members, find the names of well known and influential citizens, Ministers of the Gospel, Professional men, and repr sentatives of all classes. the new and handsome Court-house edifice. There was quite an impromptu excitement got up on the occasion. The colored hodmen, at once burst forth in song, when the last morter was smoothed, and marched in procession around the uppermost scaffold, singing those lays which none can excel them in, ever and anon halting to give three cheers. When they left the building, they went in order to the old Court-house, marched around it, singing and cheering at every corper, and afterwards "gave a performance" on the street. As it was an amateur affair, and our citizens are pleased at the near completion of the Court-house, it attracted quite a crowd of spectators.

We hope he may find it remunerative. He has erected a good substantial building, in a workmanlike manner, which will be an ornament to the place, and a credit to

In last wock's Sentinel we announced that there would be a celebration on Friday evering, the 22d, of the recent glorious Victory achieved by the People of Pennsylvania It came off: and the demonstration far surpassed our expectations, and exceeded, in the number assembled, and enthusiasm, any thing of the kind we have seen since the famous days of 1840. The substantial men of the County came here in large force, thus giving evidence of the deep interest they take in the progress and establishment of the principles of the People's Party; and also the ardent, energetic young men were out in strength—giving clear evidence of the manner in which they are determined to battle for the right.

Protection and Foreign Trade.

It is a favorite assertion among freetraders that protection will cripple and destroy the foreign trade of a country. Were this statement correct, it would be of sec ondary importance to a prosperous domestic trade, which in this country is of five times the value of the foreign. But facts show that this assertion is but one other freetrade fallacy. France, by protecting her home manufactures, has increased her commerce to a remarkable extent. HOWARD ASSOCIATION, Benevolent Institution established by spe-

cial Endowment for the Relief of the Sick and Distressed, afflicted with Virulent and Epidemic Discuses. THE HOWARD ASSOCIATION, in view

of the awful destruction of human life, caused by Sexual diseases, and the deception practiced upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give Medical Advice Gratis to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c...) and in cases of extreme poverty, to FUR-NISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical skill of the

age, and will furnish the most approved modern treatment. The Directors of the Association, in their Annual Report upon the treatment of Sexual Diseases, for the year ending January 1st, 1858, express the highest satisfaction with the success which has attended the labors of the Consulting Surgeon in the core of Spermatorrhea, Seminal Weakness, Impotence, Gonorrhea, Gleet, Syphilis, the vice of Onan-

ism or Self-abuse, &c., and order a continuance of the same plan for the ensuing year.
The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with re-

newed zeal, to this very important and much despised cause.

Physician, and a twoive years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, to gether with my unvivalled concernations and gether with my unrivalled opportunities and advantage of pathological research—aided not a little by a perfect system of Medical Inhalation - has enabled me to arrive at a decisive, direct, and successful course of treat ment for the positive and radical cure of all diseases of the Throat, Lungs, and Air Pas sages. By Inhalation, the vapor and cura tive properties of medicines are directly ad diesed to the diseased organs and the integ , fresh sir is admitted under the grate, its ment. I do not advise the use of Medica-Inhalation of any kind, to the exclusion of general treatment; and although I consider it a useful adjuvant in the proper management of those fearful and often futal diseases, yet I ; deem it very necessary that each patient should have the benefit of both general and local treatment. The success of my treatment in the above diseases, and the high character of the Institution over which I have so long fere with the buking,—or of the invisible had the honor to preside, are too well known gas which combines with the lime and so to need any subgy or comment from me. Aver's Sarsaparilla INVIGORATOR! THE LIVER

Compounded entirely from GUMS. IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public, that acts as a Cathartic, easier, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, that accomplishing two purposes effectuall, without any of the painful feelings experienced in the operations of most Cothartics. It strengthens the system at the same time thus it purges it; and whentaken daily in moder-ate doses, will strengthen and build it up with

unusual rapidity.

The Liver is one of the principal regulators of the human body; and when it performs its functions well, the powers of the system are fully developed. The of the system are fully developed. The stamach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions; when the out system suffers in consequence of one organ—the Liver—having ceased to do its duty. For the diseases of that organ, one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy whereast the many dewherewith to counteract the many de-

rangements to which it is liable.

To prove that this remedy is at last found, any person troubled with Liver Complaint, in any of its forms, has but to try a bottle, and conviction is certain. These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, cassing food to digest well, purifying the blood, giving tone and health to the whole machinery.
